

Repair kit

for repairing damaged cable sheaths incl. accessories

For safe and quick repair of cable sheath damage, suitable for all polymeric- and rubber-insulated cables and conductors. Work can be carried out under voltage on systems up to 1 kV.

Product description

Article name	KRS 1
Article number	145911
Notes	The use of a repair joint, such as MZ cast resin straight-through joint, is mandatory in case of damage extending beyond the cable sheath to the core insulation, screen or armour. See the repair tape „No. 72“ for further information on product properties and technical data

Characteristics
Kit content defined by the praxis

Applications
Repair of damaged cable sheaths

Technical data

Article name	KRS 1
Article number	145911
