

High temperature silicone protection tube
for insulating up to 200 °C

Cold Shrink Silicone Insulators are made of highly elastic Silicone rubber and is used both for the electrical insulation of polymeric or rubber-insulated cables up to 1 kV and for the protection and sealing of non-electrical applications. It also reliably protects connections between cables with different diameters.

Product description

Article name	CSS 4 mm
Article number	258335

Characteristics
Thermal class H
Structure: Fabricless

Applications
Insulating
Bundling
Protection against heat

Technical data

Article name	CSS 4 mm
Article number	258335
Materials	Silicone-rubber
Length L	15 m
Diameter D	4 mm
Hardness	60 Shore A
Flexibility at low temperatures	-60 °C
Heat resistance max	200 °C

Logistics data

Article name	CSS 4 mm
Article number	258335
Delivery scope	Silicone tube in dispenser box
Country of origin	Germany
Customs tariff number	40091100
EAN/GTIN	4010311139913

Packaging data

Alternative unit of measure	Case
Base quantity	1
Base unit of measure	Piece
Length (mm)	169
Width (mm)	167
Height (mm)	57
Net weight (kg)	0.233
Gross weight (kg)	0.233
