

## High temperature silicone protection tube

for insulating up to 200 °C

Cold Shrink Silicone Insulators are made of highly elastic Silicone rubber and is used both for the electrical insulation of polymeric or rubber-insulated cables up to 1 kV and for the protection and sealing of non-electrical applications. It also reliably protects connections between cables with different diameters.

### Product description

Article name	CSS 6 mm
Article number	258336

#### Characteristics

Thermal class H

Structure: Fabricless

#### Applications

Insulating

Bundling

Protection against heat

## Technical data

Article name	CSS 6 mm
Article number	258336
Materials	Silicone-rubber
Length L	12 m
Diameter D	6 mm
Hardness	60 Shore A
Flexibility at low temperatures	-60 °C
Heat resistance max	200 °C

## Logistics data

Article name	CSS 6 mm
Article number	258336
Delivery scope	Silicone tube in dispenser box
Country of origin	Germany
Customs tariff number	40091100
EAN/GTIN	4010311139920

## Packaging data

Packaging type	Case
Content quantity	1
Unit of measure	Piece
Length (mm)	170
Width (mm)	163
Height (mm)	57
Net weight (kg)	0.303
Gross weight (kg)	0.303
