

High temperature silicone protection tube  
for insulating up to 200 °C

Cold Shrink Silicone Insulators are made of highly elastic Silicone rubber and is used both for the electrical insulation of polymeric or rubber-insulated cables up to 1 kV and for the protection and sealing of non-electrical applications. It also reliably protects connections between cables with different diameters.

Product description

Article name	CSS 10 mm
Article number	258338

Characteristics
Thermal class H
Structure: Fabricless

Applications
Insulating
Bundling
Protection against heat

## Technical data

Article name	CSS 10 mm
Article number	258338
Materials	Silicone-rubber
Length L	8 m
Diameter D	10 mm
Hardness	60 Shore A
Flexibility at low temperatures	-60 °C
Heat resistance max	200 °C

## Logistics data

Article name	CSS 10 mm
Article number	258338
Delivery scope	Silicone tube in dispenser box
Country of origin	Germany
Customs tariff number	40091100
EAN/GTIN	4010311139944

## Packaging data

Alternative unit of measure	Case
Base quantity	1
Base unit of measure	Piece
Lenght (mm)	170
Width (mm)	164
Height (mm)	55
Net weight (kg)	0.282
Gross weight (kg)	0.282
