

Semiconductor stripping tool
for the preparation of medium voltage cables

The Stripping tool CP-P20 is designed for removal of the co-extruded outer semi-conductive layer. Spare blades and tool-box can be ordered separately.

Product description

Article name	CP-P20 Stripping tool
Article number	250354

Characteristics

Suitable for cables with a diameter of 10 - 52 mm
Guarantees depth adjustable from 0 - 1.2 mm in 0.1 mm steps
Maintains high quality of stripped surface
Hard metal peeling knife
Automatic working feed
Predefined rounded corners
Beginning of stripping at cable end

Applications

Cutting and stripping of co-extruded semi-conducting layer
